

Kenco Engineering, Inc.

Half-Arrow Scraper Bowl Shrouds

Kenco Engineering Scraper Bowl Shrouds offer outstanding wear protection for all popular model scraper bowls. They are cast in a half-arrow design that cuts through the material and directs it away from bowl sides and router bits.

SWP-200

SWP-200
As shown with
SWP-200-SA
Adapter

Installation is made easy with a weld-on adapter that mounts on the leading edge of the scraper bowl, just above the router bits. The bolt-on style shrouds can be quickly reversed or replaced.

The reversible ends of the Half-Arrow Bowl Shroud are impregnated with exclusive Kenco Tungsten Carbide for maximum wearlife.

Benefits:

- Half-Arrow design directs material away from bowl sides and router bits
- Width is sufficient to protect scraper bowl side wall
- Reversible ends are impregnated with tungsten carbide for longer wearlife
- Adapter welds to leading edge of bowl, just above the router bits
- Bolt-on style allows quick, easy reversal or replacement
- Available for all popular scraper bowls

Still proudly made in the USA
